Accreditation Standards and Criteria for Review

Accreditation Standards serve as a foundation and framework "to guide institutions in self review as a basis for assessing institutional performance and to identify needed areas of improvement." Below you will find a rich variety of campus and system-wide links related to WASC Accreditation Standards and Criteria.

For each of the Criteria for Review associated with each WASC Standard, at least one web link is provided. For each web link there is: (1) a name for the link (and an imbedded link to click on), (2) a brief summary of the contents of the link, and (3) the office that is responsible for the link or can serve as a source of more information.

Standard 4: Creating an Organization Committed to Learning and Improvement

The institution conducts sustained, evidence-based, and participatory discussions about how effectively it is accomplishing its purposes and achieving its educational objectives. These activities inform both institutional planning and systematic evaluations of educational effectiveness. The results of institutional inquiry, research, and data collection are used to establish priorities at different levels of the institution, and to revise institutional purposes, structures, and approaches to teaching, learning, and scholarly work.

1. The institution periodically engages its multiple consistencies in institutional reflection and planning processes which assess its strategic position; articulate priorities; examine the alignment of its purposes, core functions and resources; and define the future direction of the institution. The institution monitors the effectiveness of the implementation of its plans and revises them as appropriate. Guideline: A clear charge to planning bodies with a regular schedule and the existence of an understandable and coherent plan for assessing the attainment of educational objectives must be developed. Evidence of the ways the results of planning and evaluation are linked to decision-making is demonstrable.
   - Academic Senate Graduate Council
     The Graduate Council reviews requests for new graduate and professional programs and modifications to existing programs, and it conducts periodic reviews of graduate and professional programs.
     Academic Senate
   - Academic Senate Committee on Educational Policy

- **UCR Self-Study for Reaffirmation of Accreditation, January 5, 1998**

  This document, entitled “Undergraduate Education in the Context of the Research University,” represents a key element of a community experiment. The Western Association of Schools and Colleges (WASC) sponsored a series of workshops held during the 1995-96 academic year to develop a new process for reaffirming the regional institutional accreditation of major research universities that would meet the need for public accountability while being more relevant, useful, and economical for the campuses. This is UCR’s contribution to the process.

UCR

- **Campus Academic Senate**

  The Academic Senate exercises direct control over the authorization and supervision of all courses and curricula, determination of admission and graduation requirements, and approval of all manuscripts published by the University of California Press. This is the website of the Riverside Division (campus branch) of the Academic Senate.

Academic Senate

- **Academic Senate Executive Council**

  The campus Academic Senate Executive Council is composed of the chairs of most of the campus Academic Senate committees and meets regularly with the Chancellor, Executive Vice Chancellor/Provost, and other key administrative officials to provide advice and exchange views.

Academic Senate

- **Annual Reports of the Academic Senate Standing Committees**

  The standing committees of the campus Academic Senate file annual reports at the May meeting of the Academic Senate. Agendas containing these reports are available by year at the website.

2. Planning processes at the institution define and, to the extent possible, align academic, personnel, fiscal, physical, and technological needs with the strategic objectives and priorities of the institution.

- **Academic Senate Committee on Physical Resources Planning**

  The committee provides advice to the Chancellor and the campus Academic Senate on matters concerning the use of campus lands and buildings, the design and placement of new buildings, and policies guiding University relations with industry and other enterprises. It considers, provides advice, and reports on the use of physical resources and University-industry relations which may be referred to it by the Academic Council, University-wide committees, the Chancellor, the vice chancellors, the campus Academic Senate, or any other committee of the campus Academic Senate.

- **Academic Senate Committee on Planning and Budget**

  The committee provides advice to the Chancellor and represents the campus Academic Senate on matters concerning the distribution of resources on campus. It is the duty of the committee to consider, provide advice and report on such matters of academic planning and resource allocations which may be referred to it by the University-wide Committee on Planning and Budget, the Academic Council, the Chancellor, the vice chancellors, the deans, the campus Academic Senate, or by any committee of the campus Academic Senate.

- **Capital and Physical Planning**

  The Office of Capital and Physical Planning is responsible for the development of the campus Capital Improvement Program, physical planning for the campus, and campus-wide space management and inventory.

5. Institutional research addresses strategic data needs, is disseminated in a timely manner, and is incorporated in institutional review and decision-making processes. Included among the priorities of the institutional research function is the identification of indicators and collection of appropriate data to support the assessment of student learning consistent with the institution's purposes and
educational objectives. Periodic reviews of institutional research and data collection are conducted to develop more effective indicators of performance and to assure the suitability and usefulness of data. Guideline: The institution exhibits existence of clear institutional research capacities with appropriate reporting lines and support appropriate to the institution's size and scope. Institutional research or equivalent databases are developed that are sufficient to meet all external reporting needs (e.g., IPEDS), and there are appropriate ways to access or disseminate this information through publications, reports, and widely-accessible databases.

- **Office of Institutional Planning**

  The Office of Institutional Planning supports the enrollment and academic planning activities of the campus. It is responsible for the official campus enrollment, degrees conferred and student/faculty workload statistics as well as all external reporting. In addition, it maintains and manages the Course Information Reporting System.

- **Integrated Postsecondary Education Data System (IPEDS) Survey Data**

  IPEDS is the core postsecondary education data collection program for the National Center for Education Statistics (NCES). IPEDS comprises nine surveys, covering student, personnel and financial data, collected during three separate periods. Analysts in Information Resources and Communication's Data Warehouse and Corporate Systems unit coordinate all responses for the ten campuses and the Office of the President. Copies of recent submissions are provided.

- **Undergraduate Retention and Graduation Statistics**

  The basic retention and graduation statistics for the campus are presented at this web link. Access is via the listings in the left column.

6. Leadership at all levels is committed to improvement based on the results of the process of inquiry, evaluation and assessment used throughout the institution. The faculty take responsibility for evaluating the effectiveness of the teaching and learning process and use the results for improvement. Assessments of the campus environment in support of academic and co-curricular objectives are also undertaken and used, and are incorporated into institutional planning. Guideline: The institution has clear, well-established policies and practices for gathering and analyzing information that leads to a culture of evidence and improvement.

- **CHASS Connect Program**

  The CHASS Connect Program is part of the CHASS F1RST: First-Year-Experience Program in the College of Humanities, Arts, and Social Sciences. It involves enrolling in a year-long course sequence and
receiving significant interaction with program faculty and teaching assistants, focused and personalized advising, and peer mentorship.
